

# Participants Needed for Autism Research!

We are conducting a research study to see if an investigational medication called Pimavanserin can help improve behavioral inflexibility and rigid-compulsive behaviors.

## Key Study Eligibility Criteria:

- 12-40 years of age Diagnosed with or
- suspected to have autism
- Have a caregiver willing to assist in study

*Participants must complete 5 visits at Center for Autism and the Developing Brain (CADB) in White Plains, NY over about 2 months. Compensation will be provided for study visits and travel.*
